Presentation by Warren Schill of Underwriters Laboratories on the following topics:

The EUSERC presentation on Services, Service Equipment, and Service Grounding will address the following:

- Service Terminology
- Grounding for Services
- Service Equipment
- Service Installation

The presentation will answer the following questions:

1. What is a service?
2. Where does it start?
3. Where does it end?
4. What is a grounding electrode?
5. How is the grounding electrode connected to the service equipment?
6. Where does the ground connect in the service equipment?
7. Why ground electrical systems?
